

Welcome to the UCEENET Alumni Visit Program

This is an announcement from the Nonprofit Organization UCEENET (University Coalition on Engineering Education) that was stemmed from a campus cross linkage committee of engineering schools of eight leading universities* in Japan. A student chapter of UCEENET invites you to participate in the alumni visit program of the UCEENET School of Industry

Participants will go in a small group to visit the headquarters of companies, along with the manufacturing plant, research center, and other places. After that there will be a meet up with some of the most active seniors to talk and exchange opinions about topics revolving around "My axis".

Students who could not participate in the symposium in June 5th are also welcome to participate in this program.

If you are interested in joining the UCEENET Alumni Visiting Program to some of the companies below, please send us an email before the designated deadlines to uceenet@clear.ocn.ne.jp containing **your name, your institution and department, your e-mail address, your phone number and company names and dates**. Acceptance will be depending on the limitation of the number of participants.

This is not a job hunting event; the commuting expenses are to be self-paid.
